## Local Milk Dealers Ask Health Board to Employ Inspector For Kingston

Dealers Having a Demand For Raw Milk Willing To Help Pay For Inspection Instead of Pasteurizing Costs.

### STATE EXPERTS

To Invite Two Men From State Board To Meet With Local Board and Producers.

At the meeting of the Board of Health in the city hall, Tuesday night, following a discussion of the milk question, it was decided to invite two men from the state board of health to meet with the local board and the milk producers furnishing this city, to explain in detail all matters pertaining to the production of milk.

One of the features of the discussion on milk was a letter from the dairymen supplying Kingston who were represented by Pratt Boice, chairman and William E. Mellert, secretary of the Kingston Milk Council.

The letter follows:  
The Board of Health,  
City of Kingston, N. Y.  
Gentlemen:

A committee of milk dealers delivering milk in the City of Kingston in order to meet the regulations of the New State Code and The Revised Sanitary Code of your city passed recently, wish to co-operate with your Honorable Body so that it will be possible to deliver to the consuming public a high grade of milk regardless of whether it is pasteurized or raw. Under the new regulations all milk must be pasteurized except the new Special "A" Raw which is the only grade permitted to be sold in cities of over fifteen thousand (15,000) inhabitants except that of Certified Milk. This Special "A" Raw milk will require examinations of all milk handlers on the farm as well as in the bottling plant by a physician monthly also examination of cows producing this milk at intervals of not more than three (3) months by a licensed veterinarian. Cows must pass the T.B. test and be free from Bang's abortion disease and mastitis. These requirements will necessitate added cost to the producer and dealer, but pasteurization is also an expensive operation. We who have a demand for raw milk are willing to help pay the cost of pasteurizing it, and thus be able to serve the people of Kingston to desire it, a pure wholesome bottle of milk, without undue cost to the city for inspection.

**Submit Plan**  
The plan we submit for your approval is as follows: The City of Kingston shall employ an inspector who is to be a practical man in the production of milk, who is to advise and assist the producer and dealer so that they can meet the requirements set up by the state and local board and see that the milk comes from cows which are cared for by properly inspected employees, also assist the health officer in his work and reports which have to be submitted to the state commissioner of health monthly. As the new code reads "No milk shall be labelled or designated unless before employment all employees at the dairy are shown by the examination in an approved laboratory of specimens of excreta, collected by or under the direction of the health officer, to be free from the germs of disease which may be milkborne." The city now maintains excellent laboratory facilities and has other skilled employees who would in turn aid and co-operate with this inspector. We who have a demand for raw milk suggest that we pay to the city of Kingston one half cent (5.00%) per quart for all milk sold as raw and one half cent (2.50%) per quart for milk separated and sold as raw cream. We feel that this is fair to your board and the people of the City of Kingston whose health you try to safeguard.

Accompanying this communication is a list of the approximate amount of milk delivered by dealers supplying this city also a statement expressing the opinion of the dairy committee of Ulster county which we place before you for your consideration.

Respectfully submitted by  
PRATT BOICE, Chairman.

After the letter had been read Dr. Hill, health commissioner, moved for the invitation of the state experts. His motion was welcomed by the dairymen's representatives who asked permission to have a representative present at the meeting to discuss in full their side of the question. Permission was granted.

A communication from Dr. Parran of the state health department showed Kingston with a death rate of 21.7 in 1933, among infants, a percentage much lower than any for the past five years as shown by the official figures given by the state. They follow:

The death rate for 1933—59.0;  
1932—70.2; 1931—51.6; 1930—44.0; 1929—40.3.

The figures given are taken from the resident deaths and death rates of infants per 1,000 live births for each year, making the death rate for the state, 57.4. New York city being excluded.

Mayor Conrad J. Heiselein, presiding over the meeting, directed that copies of Dr. Parran's communication be distributed to all members of the board.

## Senator McNaboe Introduces His Reapportionment Measure

Bill Introduced After a Message From Governor Lehman Urging Action On Legislative and Congressional Reapportionment—Majority Leader Dunnigan Is Undecided On His Own Measure.

### Aldermen for Series Of Concert Dances In the Auditorium

Two 10-Piece Orchestras Will Provide Music for Young Folk and Old at First Affair Monday Evening, July 16—Community Interest Desired.

The members of the Board of Aldermen are taking great interest in the proposition to run a series of popular concert dances at the Municipal Auditorium this summer and are doing their best to make these coming community events a success.

The first of these "indoor block parties" will be held at the auditorium Monday night, July 16, and it is planned to have Mayor Heiselein present to welcome the young people at 10 o'clock. Two 10-piece orchestras will furnish music and dancing will be enjoyed from 9 to 12.

The older folks as well as the younger ones are invited to patronize these community dances and for their benefit the committee is planning to put on some of the older dances, such as waltzes and the Paul Jones. These, of course, in addition to the modern dances.

The committee also plans to reserve the gallery for the older folk who like to come and watch the dancing. There will be no charge for such admission to the gallery. There will be a nominal charge for admission to the dancing floor, sufficient to cover expenses. The thought of popularity rather than profit being the idea back of the movement.

The following aldermen are serving on committees:  
Tickets: Cornwell, Letey, Renn, Ashby.  
Door: Kolts, Ringwald, Ringwald, Doherty, Schoonmaker.  
Floor: Schwenck, Zucca, Tremper, Kelly, Epstein.

## Germany Threatens To Expel Press Men Who Invoked Nazi Ire

Goebbels Says Nation Will No Longer Tolerate Foreign Correspondents Whose Aim Is to Stir Up International Strife.

Berlin, July 11 (AP)—Germany threatened today to expel foreign correspondents whose accounts of the bloody "second revolution" aroused Nazi ire.

Adolf Hitler's own newspaper, the Volkische Beobachter, editorially underscored a warning given the journalists by Paul Joseph Goebbels, sharp tongued minister of propaganda, in an address last night.

"We wish to emphasize the minister's frank warning that 'the German government is no longer inclined to tolerate foreign correspondents inciting nations against each other,'" said the newspaper.

Germany otherwise was comparatively quiet, following days of bulletins and then of oratory.

It awaited an account of his stewardship from the lips of "Der Fuehrer." Hitler himself, who has called the puppet Reichstag to meet Friday night. Hitler is expected to explain his ruthless suppression of the "Roemum revolt" of June 30.

Foreign correspondents, many of them angered by Goebbels' bitter attack, considered the possibility of making formal remonstrances.

Goebbels struck particularly at French, Russian and English press and radio reports of the "purging." He did not mention the American press.

A majority of the press, Goebbels charged, "embarked upon a campaign of lies which in its maliciousness can be compared only with the campaign of atrocity tales that were set in the scene against Germany during the war."

The Foreign Press Association was called into extraordinary session today to consider as a matter of professional honor Goebbels' attack.

**James J. Gill Dies, Was Born in This City**  
Albany, N. Y., July 11 (AP)—James J. Gill, 77, formerly road foreman of engineers of the New York Central Railroad and connected for 15 years with the Public Service Commission as an assistant supervisor of equipment, died at his home here yesterday. He was born at Kingston, but had lived in Albany more than fifty years.

### STATE CAPITOL, ALBANY, N. Y., July 11 (AP)—Senator John J. McNaboe, New York Democrat, today opened the way for a renewed controversy with Majority Leader John J. Dunnigan when he introduced his Congressional Reapportionment bill which at the last regular session caused his fight with the Democratic leader.

The measure was introduced without comment. Senator Dunnigan said he did not know whether he would again introduce his own reapportionment measure which died at the last legislative session.

The McNaboe measure is identical with the Republican resolution which passed the legislature in 1931, but the Court of Appeals held the measure unconstitutional because it was passed as a resolution in order to avoid submission to former Governor Roosevelt.

The fight between Dunnigan and McNaboe last session led to the removal of the latter as chairman of the reapportionment committee, which considers measures on this subject. Dunnigan charged that McNaboe was "a traitor" to the Democratic party by sponsoring the measure which the Democrats contend would give the Republicans several extra seats in Congress by changing the Congressional districts.

The McNaboe Bill was introduced immediately after a message from Governor Lehman was read to the Legislature urging action on legislative and Congressional reapportionment.

At the same time Senator Dunnigan introduced the bill sent to him by the New York city charter revision committee, headed by former Governor Smith, calling for revision of county governments in the five counties of Greater New York. It was at the request of the charter revision commission that the legislature was called into special session.

Assemblyman Abbott Low Moffat, New York Republican, introduced the companion measure in the Lower House.

Immediately after the measure was introduced, Senator William T. Byrne, Albany Democrat and chairman of the judiciary committee, announced that a public hearing would be held on the measure next Monday at 12:30 p. m. eastern standard time.

Senator George R. Fearon, Republican minority leader, amended his bill which he introduced yesterday, so that it would combine the complete provisions of the Dunnigan New York city local government proposals and the Mastick upstate reform proposals. The Republicans have pledged themselves to support this combination bill which provides for county reorganization throughout the state.

Senator Lazarus Joseph, Bronx Democrat and chairman of the special legislative committee on relief for mortgage certificate holders, said that his committee would meet some time today to discuss legislation on this subject. The Governor has indicated that the special session will be opened for mortgage investment relief legislation.

The legislature adjourned until 11 a. m. tomorrow.

**ROCKEFELLER "INTERPRETER" TO GET \$25,000 GERMAN SALARY**  
New York, July 11 (AP)—For expert advice on improving German-American trade relations, Ivy L. Lee, who interprets John D. Rockefeller to the public, was engaged by a German chemical firm at an annual salary of \$25,000, it was revealed today.

Lee's testimony was in the form of a deposition examined at a special executive session of the congressional sub-committee which is investigating un-American activities. Lee, public relations counselor of the Standard Oil Company of New York, testified, through his deposition previously taken, that about a year ago he was hired as adviser by the I. G. Chemical Company of Germany.

**For Vocational Education.**  
New York, July 11 (AP)—Delivering a broadside attack on classical "preparation" education, Professor David Snedden, speaking before summer session students at Columbia University, advocated today the founding of state vocational institutions similar to the naval and military academies. The cost would be from two hundred to four hundred million dollars annually, he said, to maintain from 15,000 to 20,000 schools. One hundred automobile vocational schools alone, however, would save American car owners \$100,000,000 a year, he added.

**German Cruisers at England.**  
Portsmouth, Eng., July 11 (AP)—The arrival of the cruisers Koenigsberg and Leipzig today marked the first German naval visit to England since the World War. The vessels are here for a four-day courtesy call as guests of the English navy.

**Flee Divorce Suit.**  
Los Angeles, July 11 (AP)—Lupe Velez, Mexican peppercorn of the films, filed suit for divorce today, charging her husband, Johnny Weissmuller, screen actor and Olympic swimmer, with cruelty.

## Mayor Heiselein Is In Dofffuss Announcement New York City Studying Is Anti-Nazi Campaign Incinerator Project With Severe Penalties

Will Investigate Incinerators at Pelham Manor and Hackensack To Obtain Information Concerning Project Here.

### COST SET AT \$60,000

Mayor Believes TERA Would Aid So City Would Be Forced To Pay Only \$20,000.

Mayor Conrad J. Heiselein is in New York city today for a conference with TERA officials in reference to the construction of an incinerator in Kingston to be used for the burning of garbage.

Mayor Heiselein left here this morning at 7 o'clock in order to be able to investigate work done by incinerators at Pelham Manor and Hackensack, N. J. He will find out the cost of construction, cost of operation and learn more about the benefits of such a plant to a city in the way of sanitation.

At the meeting of the board of health in the city hall Tuesday night, the mayor said he thought an incinerator could be erected for approximately \$60,000 from rough figures he had been furnished with and was in favor of building one provided the work could be taken up by a TERA project with the federal government standing the greater part of the cost of construction. According to estimates, the mayor thought an incinerator could be built at a cost of about \$20,000 to the city.

**Beautiful Building.**  
From the standpoint of sanitation, Mayor Heiselein thought the incinerator would be a benefit to the city in that all the garbage collected would be destroyed by fire, with no odor coming from the process by virtue of the construction of the furnaces and gasifier stack. "A picture of one incinerator I have seen would remind one of the Kingston City Library, so much did it resemble it in the style of architecture. The grounds surrounding it were landscaped beautifully." The mayor pointed this out to overcome any idea that the "garbage burner" might be something horrible and an eyesore.

Regarding a location for the incinerator, no spot has been designated until the TERA has passed on the matter of construction.

Mayor Heiselein was of the opinion that considerable employment could be furnished local laborers and mechanics in building the plant, giving a chance for more work relief instead of home relief. The mayor is in favor of work relief rather than home relief, believing that men would rather earn what they get than receive it in the form of dole. However, he realizes this cannot apply to every case.

**Report On Relief.**  
Because of his insistence on work relief rather than home relief, \$39,351 was spent on work projects during the month of June and only \$6,855.62 given out on home relief cases.

Realizing the allotment of \$51,500 given Kingston by the TERA would not carry the city over the month of June, the mayor asked for an increase and received a grant that brought the total to more than \$60,000 as shown by the following report he had compiled.

**Financial Statement**

### END BOMB OUTRAGES

In Cabinet Shakeup Old Names Are Discarded and President Gets a New List.

Vienna, July 11 (AP)—Engelbert Dollfuss, Austria's fighting little chancellor, announced a huge new drive against Nazis today after concentrating in his own hands all the military and police power of the nation.

The death penalty will be dealt out for the mere possession of explosives, Dollfuss announced, in an effort to stop widespread bombing outrages.

In a cabinet shakeup Dollfuss presented the resignation of the whole group to President Wilhelm Miklas and then submitted a new list for Miklas' approval.

Dollfuss appeared determined to stamp out the whole Nazi movement in Austria.

It was announced a period of grace will be allowed within which every one possessing explosives will be given opportunity to surrender them.

After the expiration of this period the possession of any explosives without legal authority is punishable with death.

Taking a leaf from the notebook of his neighbor and friendly protector, Benito Mussolini, Dollfuss will add several cabinet portfolios to his list of duties.

He will be chancellor, foreign minister, minister of defense, public security and agriculture. All military and police power in Austria will be concentrated in his hands. He already held the foreign and agriculture portfolios.

A communique asserted the step was necessary for peace and order and to wipe out "the last vestiges of treasonable movement."

Almost daily bombings and other acts of terrorism have kept the government nervous for months. Austrian Nazis were blamed for Dollfuss supporters. They are bitter foes because of the chancellor's unrelenting opposition to a union with Germany.

In remaking the government Dollfuss crippled the power of the Fascist Heimwehr, or homeguard, which gained government favor by Yeoman work during the bloody Socialist revolution in February, although previously no great lover of Dollfuss.

**ANGELO STABBED A CROONER, EXPLAINS WHY TO JUDGE**  
Jersey City, N. J., July 11 (AP)—Angelo Febrario, Baltimore barber and arch foe of crooners, tried to explain to a judge today why he invaded a local radio station and stabbed a crooner.

A song about Angelo caused all the trouble, the little barber said. Every crooner who had sung the number from the local station mentioned Angelo's name and spoiled it. Finally the Baltimore Angelo could stand it no longer and came here by bus to take steps to avenge the real crooner's abuse of his name.

The program manager of the station presented records showing that no song mentioning the name "Angelo" had been put on the air, but the Baltimore Angelo was unconvinced. He was positive his honored name had been made the butt of mockery.

Judge McGovern thought it over and ordered Angelo held in \$2,500 bail for the stabbing assault on Crooner Harold L. McNamara Sunday, and \$500 for assaulting the radio station elevator operator. He also directed the county physician to give Angelo a mental examination.

**GERMAN TRADE LEADER REMOVED, HAS SUCCESSOR**  
Berlin, July 11 (AP)—Philip Kessler, leader of Germany's economic and trade life, was summarily removed from office today by Kurt Schmitt, Nazi minister of economics, being replaced by Count Von Der Goiz.

Count Rudiger Von Der Goiz formerly was second in command of new trade groups formed under the Nazi commerce ministry.

Informed business circles believed Kessler's removal was owing to the fact he had too little industrial experience for the post.

Co-ordinating Germany's entire trade and industrial life, he had been an electrical engineer with scant experience in industrial organization, while Von Der Goiz was well founded in industrial and business matters.

## Sullivan County Coroner Believes Crew, Passengers Unconscious or Asphyxiated From Fumes of Engine

Clarence Brown Hurt and Car Wrecked When Hit-Run Drivers Flee

### Dr. Bourke Pictures the Big Airliner Flying From Newburgh "Dead-Stick"

At No Time Had He Ever Held Opinion That Airliner Was Wrecked by an Explosion Within the Craft.

**ADJOURNED, JULY 19**  
Following the Testimony of Several Witnesses on Tuesday an Adjournment Was Agreed To.

Dr. William Bush, who saw Accident on Ellenville Road This Morning, Gave Chase at 70 Miles Per Hour, But Lost Out—Was Pennsylvania Car.

Clarence Brown, driver of the Kingston-Ellenville bus, was returning from Kingston to Ellenville this morning between 12:30 and 1 o'clock driving his Ford coach and when about half way between Accord and Kerhonkson near the Marshall farm a car bearing a Pennsylvania license collided with the Ford. The Ford car was thrown to the ditch where it overturned and Mr. Brown suffered a severe cut behind the ear and his hands were badly cut.

The driver of the offending car failed to stop and continued on toward Kingston at a fast clip. Dr. William S. Bush of Kingston, who was traveling close to the Pennsylvania car, gave chase and although he drove at a rate of 70 miles an hour was unable to overtake the car. After a short chase he returned to the scene of the accident and gave medical aid to Mr. Brown. Several stitches were required to close the wound behind the ear. Mr. Brown was badly shaken up and his car was very badly damaged.

Contable Mortimer H. Block of Accord was notified and went to the scene. He immediately got in touch with the sheriff's office and the Kingston police and asked that a check be made of garages in the city to ascertain whether a car bearing a Pennsylvania license had stopped here for repairs.

The car was thought to be a green Dodge and it is believed that it was considerably damaged in the crash.

## Dillinger Revives Sleepy Hollow Legend In Tarrytown Cruise

U. S. Bad Man No. 1 Reported To Have Been Visitor Tuesday Night Near Historic Westchester Village—Deputy Says License Plates Were Changed.

North Tarrytown, N. Y., July 11 (AP)—Like the "headless horseman" of Washington Irving's tale, desperate John Dillinger rattled across a bridge near Sleepy Hollow cemetery last night and, assuming for the moment the role of Ichabod Crane, Deputy Sheriff Dodd of Putnam county saw the boogey man of the west and held to his vision against all jests.

The deputy hurried to Dobbs Ferry police station and snatched a telephone. He promptly contacted New York city police headquarters and reported that:

He was driving through North Tarrytown and noticed two high powered automobiles jerk to a stop near the historic cemetery. Five dangerous looking men leaped from the first car and, taking orders from one of the four men in the second car, whose left arm was in a sling and on whose lap rested a machine gun, they speedily stripped Michigan license plates from car No. 1. Wisconsin plates from the other, then replaced them with Massachusetts plates.

At a signal from the wounded leader, who greatly resembled Dillinger, the henchmen returned to their seats and the two machines sped southward toward New York or one of the ferries across the Hudson and disappeared like Irving's phantom rider.

After spreading the word, Deputy Sheriff Dodd left Dobbs Ferry headquarters and continued pursuit of the fugitives. New York state police of Troop K at Hawthorne, seeing the Dillinger was reported, recalled in a western Massachusetts community near the New York line about a week ago, were sufficiently credulous to broadcast the latest report over a five-state alarm system. No further trace of the bandit and his eight men has been reported in this vicinity.

### Dr. Bourke Pictures the Big Airliner Flying From Newburgh "Dead-Stick"

At No Time Had He Ever Held Opinion That Airliner Was Wrecked by an Explosion Within the Craft.

**ADJOURNED, JULY 19**  
Following the Testimony of Several Witnesses on Tuesday an Adjournment Was Agreed To.

Dr. Victor E. Bourke, Livingston Manor physician, and one of the coroners of Sullivan county testified Tuesday that, in his opinion, the luxury American Airliner crashed against Mongaup mountain on June 9 after flying from Newburgh "dead-stick". He pictured the airliner weighing some nine tons flying along off its course some 50 miles with its crew and passengers unconscious or asphyxiated from "fumes of the engine".

At no time had he ever held the opinion that the airliner was wrecked by an explosion within the craft, he said.

Following the testimony of several witnesses Mr. Murray asked for an adjournment until July 19 at 10 o'clock. Coroner Humiston agreed to that date.

The dapper, ruddy-cheeked physician had failed to appear at the morning session of the Inquest called by District Attorney Cleon B. Murray before Coroner Howard R. Humiston and there was considerable speculation as to whether he would appear at all. However, shortly before the afternoon session was called he appeared and was the first witness to be called when the inquiry was resumed. His name had been called several times at the morning session but he failed to respond and no reason was advanced for non-appearance.

It was before Dr. Bourke that the first investigation was held. When the huge 15-passenger twin-motored Curtiss Condor express airliner was reported missing hours after taking off from the Newark airport on June 9 it was reported as having crashed within a half hour after leaving Newburgh for it was at 5 o'clock from that place that it last reported. The search was begun over an area north of Newburgh where the airliner might be expected to reach within half and hour's flying time. As it was known to have been taking the Hudson river course toward Albany it was supposed to have passed this city and a wide search was made in the upper Catskills near Catskill but when the wreckage was spotted by Ted Hallock, Wurtsboro aviator, on Mongaup mountain on Monday about noon, two days after the plane took off, it was determined the wreck had been in Sullivan county. When the searching party finally reached the plane and found all seven passengers dead it was Coroner Bourke who was summoned.

**Took Place In Ulster County**  
Later a survey was made and it was found the wreck had taken place in Ulster county a few hundred feet from the county of Sullivan line. Then the investigation was transferred to Ulster county and the inquest called by Dr. Bourke cancelled and the personal property found in the wreck was turned over to Sergeant Hopkins of the State Troopers who turned it over to District Attorney Cleon B. Murray.

When Dr. Bourke took the stand he said the investigation had first been undertaken in Sullivan county but when it was determined the crash had taken place in Ulster county he turned all of the evidence he had and various personal effects over to the Ulster county authorities. He said before it was known the crash was in Ulster county he had personally gone to the scene and found seven bodies in the wreckage. No autopsy was performed but from his personal investigation he had determined that the deaths were caused by injuries which the occupants suffered when the plane crashed against the mountain. Most of the bodies were badly burned and all suffered severe fractures. His opinion was that death had been due to the crash of the plane.

The last time he saw the plane was on June 11 he arrived at the scene of the crash and found the wreckage. The plane was in a bad state of disrepair and he saw no signs of life. He saw no signs of life.

He said he saw no signs of life. He saw no signs of life. He saw no signs of life.

## Secret Police Trials Abolished by Decree To Strengthen Soviet

Case In Future Will Be Tried In Supreme Courts of Republic—O. G. P. U. Has Been Merged Into New Commissariat.

Moscow, July 11 (AP)—The 19-ary factions of the O. G. P. U. state police organization which in revolutionary times condemned thousands of people to death, have been abolished in decrees from the Kremlin which were hailed today as strengthening the internal position of the Soviet Union.

Cases investigated by the O. G. P. U. hereafter will be tried in the supreme courts of the republic constituting the union.

The O. G. P. U. is merged in a newly reestablished Peoples' Commissariat of Internal Affairs, of which Nikolai Chigodai, vice-president and now acting head of the O. G. P. U. will be commissar.

The functions of the new commissariat are to secure revolutionary order and state safety; to protect public and Socialist property; to register vital statistics; and to direct the frontier guards.

Ordinary cases investigated by the O. G. P. U. are to be sent to the regular courts. Cases connected with state safety will go to the supreme court of the union and cases involving treason and espionage will be transferred to the war collegium of the supreme court. Appeals may be made to the supreme court of the union, then a reviewing body composed of the chairman and two other members of the supreme court, and finally to the central executive committee.

A special body is to be formed to administer deportation, exile and labor camps.

The Soviet press paid tribute to the O. G. P. U. for having suppressed a counter-revolution under the leadership of the late Felix Dzerzhinski and the late Viacheslav Menzhenskii.

The revolutionary order which the Cheka and the O. G. P. U. protected will be zealously guarded by the commissariat of internal affairs, the paper said.

Lagoda, who will have complete charge of the new commissariat, is 43. He has been a communist for 27 years. He became a member of the Presidium of the Cheka in 1920 and served for two years, then became vice-president of the O. G. P. U.

## Heir Apparent to Steel Crown is Tom Girdler

Eugene Grace is Only Rival of Man Who Would Be Enthroned On Royal Dais of Industry's Mighty Ex-Czars, Gary and Schwab.

Cleveland, July 11 (AP)—Out of the steel industry's newest merger deal there is arising, some steel men believe, the heir apparent to the "crown" once worn by Charles M. Schwab and the late Judge Elbert H. Gary.

The pending merger of the Corliss-McKinney Steel Company into the Republic Steel Corporation, with an estimated \$33,000,000 in assets, brings to the forefront Tom M. Girdler, Republic's president and chairman, as the newest potential occupant of the industry's "throne."

Today, steel men say, he has only one rival—Bethlehem Steel's president, the soft-spoken Eugene Grace.

Years ago, whenever steel leaders gathered, it was Judge Gary's voice which dominated and ruled. Schwab succeeded to the throne when Gary died, but has become less active in recent years, and has apparently left the scepter for new hands to grasp.

There'll be no election to choose the next of the kings. The industry merely will find one of its leaders demonstrating an outstanding value to the world of steel, and will give him the throne by silent consent.

Grace has been in the limelight longer, but Girdler's handling of Republic through the depression, an achievement now capped by the pending merger, brings him before the industry for a fresh analysis.

In 1929, when Cyrus S. Eaton, Cleveland financier, was welding a group of small companies into the present Republic Steel, Eaton chose Girdler as the man to run it.

Since that time, Girdler has run Republic, and steel men say he has run it well. Now he is steering it into the biggest merger the industry has known since Eaton formed Republic itself.

Dr. Day on Motor Trip.

Dr. Mary Gage-Day, accompanying her nephew, Henry S. Wright, and Mrs. Wright of St. Petersburg, Fla., left town by motor today for Worcester, Mass., Mohawk, Montreal and Quebec, Canada. Returning by way of the New England states, Dr. Day expects to return in a little over a week.

## Mississippi Votes To Remain Dry State

Head Liquor Bill, on Basis of Prohibition, Shows a 2 to 1 Majority for Prohibition.

Jackson, Miss., July 11 (AP)—Mississippi held its place among the dry states today by a vote of approximately 2 to 1.

Incomplete, unofficial returns from yesterday's prohibition referendum showed defeat of the hard liquor bill by a vote of 47,275 to 23,246 in 558 of the 1,596 precincts of the state.

The vote conceded defeat. Senator W. B. Roberts of Rosedale, co-author of the Roberts-May compromise hard liquor legalization bill, said the result was a "mandate to the governor, sheriffs and other peace officers to make a determined effort to enforce the present law and end the present unspeakable conditions."

By voting dry the people rebuked their legislature. The last legislature authorized beer at the same time it put the liquor issue before the voters and four per cent beer was just as far as Mississippians chose to go in the legalization of alcoholic beverages.

The victory of the drys in retaining their 25-year-old state prohibition law barring hard liquors was hailed as a signal triumph for the forces of which Governor Sennett Conner is a leader.

The people voted first on legalization of hard liquor. That was defeated. They voted secondly to permit sale of liquor in counties desiring it, predicated on the supposition that the state went wet.

But the vote was overwhelmingly dry and wet majorities in some ten or slightly more counties meant nothing.

## Man Believed Dead Found Hanging to Boat

This morning at 2 o'clock the Kingston Police Department was called to grapple for a man thought drowned in the Rondout creek, but who was very much alive when the patrolmen arrived and hauled him from a dangerous position between a barge and the dock.

The man was William Kegler, a captain on one of the Dwyer boats.

John McDermott, the watchman on the Island Dock, "phoned Sergeant James V. Simpson at the early morning hour that he had heard cries for help coming from the creek and investigating found no one in the spot from which the call came. "The person must be drowned," said McDermott. "I searched the dock for 30 minutes and there's no one in sight. You'd better send grapping hooks."

The sergeant immediately sent a detail of patrolmen—John Harnen, Wesley Cramer and Winfield Entrott—to help McDermott. They took with them the suggested grapping irons and a large searchlight borrowed from the fire department.

Arriving on the Island Dock road they went in the direction that the watchman said he heard the cries come from. At the location there was a barge tied to the dock. Using the light the patrolmen saw a man clinging to the grass along the bank in a dangerous position between the dock and boat. Fortunately the creek was calm and the barge did not move, otherwise Kegler might have been crushed to death.

The officers hauled the man from his exhaustive position and took him aboard the barge of which he is captain. He went to bed saying he felt all right and did not need medical attention.

Questioned as to how he got between the dock and the boat, Kegler said he slipped and fell from a ladder on the side of the boat while trying to climb aboard.

"Grapevine Telegraph"

The expression "grapevine telegraph" refers to the speedy exchange of news or information or the transmission of messages by word of mouth. It had its origin during the Civil war and received its name from comparing the way verbal news travels to the way a grapevine spreads from tree to tree or trellis to trellis.

## Acres Production Of AAA Is Unchanged For 1935, Report Holds

Secretary Wallace Says Present Reduction Will Be Continued Unless International Wheat Agreement Is Broken Within a Month.

By STEPHEN J. McDONOUGH (Copyright, 1934, by The Associated Press)

Washington, July 11 (AP)—The law of weather averages and a generous carryover from the nation's granary probably will enable the AAA to leave its acreage production unchanged for next year.

This was made clear by high agriculture department officials today after they had studied figures of the crop reporting board that showed an estimated production for 1934 lower than any in the past 30 years.

The output of all wheat was estimated by the board at 433,662,000 bushels, a cut of 18,000,000 bushels during the month of June, and approximately half of the normal production of 856,359,000 bushels.

Secretary Wallace announced Monday that the present reduction of 15 per cent under the average 1928-32 production would be continued through next year unless it develops before planting begins next month that other nations do not intend to live up to the international wheat agreement.

The administration in drafting next year's program holds to the belief that normal weather will prevail after two unprecedented years of drought. They expect nature to boost wheat production above the 625,000,000 bushel level of domestic consumption.

Officials pointed out that even though this year's wheat production should fall below the estimated figure the present carryover would assure a net surplus on July 1, 1935, of approximately 115,000,000 bushels.

Drought damage reflected in the wheat curtailment held true for other crops, corn production being estimated at 2,113,137,000 bushels or 71.8 per cent of normal; oats at 567,839,000 bushels or 40 per cent of normal; barley 125,155,000 bushels or 45.9 per cent of normal; rye 2,260,000 bushels or 40.2 per cent of normal.

Two Complaints Dismissed.

There was no appearance on the part of Mr. and Mrs. John Lewis of Sawkill when William Stort of Babes was arraigned before Justice William C. Cull at Stuyvesant Court Tuesday, and the judge dismissed the complaints of driving a car while intoxicated and assault in the third degree. Short will have to answer to the next grand jury, however, on the charge of carrying a dangerous weapon, on which charge he is now out on bail.

To Inspect Incinerator Plant.

The mayor discussed the erection of an incinerator for the burning of garbage and said he intended to inspect several such plants today in an endeavor to learn of construction costs, operating costs and other matters. He was of the opinion that an incinerator would be very advantageous to Kingston if one could be built at a reasonable cost and operated at an economical figure. The matter of constructing an incinerator was to be taken up as a TERA project by the mayor in New York today.

Plumbing Inspector Charles Gregory reported on the Hudson street sewer, pointing out the many benefits derived from its construction in the way of sanitation and prevention of disease.

Mayor Heisselman asked for a list of streets in which there are no sanitary sewers with the intention of having more TERA projects planned. In a way of commendation, Commissioner Dr. Holcomb reported having heard a TERA executive praise Kingston for the way it is using federal allotments for improvements here in the way of sewers, streets and other things.

A resolution from City Clerk Edgar J. Dempsey was read asking that marriage records from 1881 to 1907 be transferred from the board of health office to the files of the city clerk. The board decided to have the transfer made.

## Flashes of Life Sketched in Brief

By The Associated Press—  
Hold Those Quotas

London, Nov.—British voters will have another chance soon to legalize Sunday closing laws. The issue is now before the House of Commons. The bill is expected to pass.

For the fourth time in 20 years, voters will ballot on the issue. The proposal is to amend the present blue laws, striking out reference to the ban on Sunday closing.

On Sunday pictures, the voters will have to endorse existing provisions which make it illegal to dance on the Sabbath, to run foot races, to engage in the fast driving of horses or other animals, to play 10 pins or croquet in the streets, to play football, to play other loud sound-making instruments.

**To Make Life Better**  
Joliet, Ill.—Warden Frank D. Wiley has announced receipt of a letter from one of the inmates giving suggestions as to how life for the prisoners might be made a little more pleasant. Among other things, the writer suggested a swimming pool and decorated walls, adding: "There is also a crying need for more intelligent guards. If you would require the guards to pass an intelligence test, it would raise the intellectual plane of the institution."

**Something New in Jailbreaking**  
Raleigh, N. C.—A long fly in a baseball game at a highway prison camp helped Dallas Brown, convict, to escape.

Dallas was playing in the outfield when he started running back to catch the ball. The ball landed, but Dallas kept running.

He outran his pursuer.  
**Old Gypsy Custom**  
Brooklyn, N. Y.—It was the same old trick, but it was good for \$14,000.

Miss Emily Churchward told police that a gypsy fortune teller read her palm and then offered to double her fortune. Miss Churchward gave her the \$14,000 and supposed it was returned to her, wrapped in a handkerchief which she wore around her waist three months before opening it.

Police are looking for the gypsy woman, but three months is a long start.

Port Even, July 11.—All members and friends of the Dorcas Society are kindly requested to make candy for the Reformed Church block party Thursday evening.

Those who have plates from the recent library food sale are asked to please bring them to the library either Monday or Friday between the hours of 2 and 5 p. m.

Charles Barton, who spent several days at his home on Salem street has returned to his position in New York.

The Epworth League will hold a picnic at Cormack's beach Thursday afternoon. They will leave the church at 2:30 o'clock. There will be an afternoon of swimming and a picnic supper.

Everything is in readiness for the block party to be held on Salem street Thursday evening, July 12 under the auspices of the Reformed Church. After the cafeteria supper a most enjoyable evening may be spent at the various booths and at games. There will be the usual hot dog stand, ice cream and soda counter and candy table. There will be three games, the bottle game, baseball and golf games and throughout the evening a five-piece orchestra from Kingston will furnish music.

The menu for the cafeteria supper is as follows: scolloped ham, baked beans, scalloped potatoes, potato salad, pickles, rolls, cake, pie, coffee, hot dogs, and ice cream. Supper will be served at 5:30 p. m.

An important meeting of the official board of the M. E. Church will be held in the parsonage at 7:30 o'clock Thursday evening. All members are requested to be present.

Answer to Yesterday's Puzzle

## The vacation SHE HAD

ANNE cried as she came back from her two weeks at the shore.

She had looked forward all year to making new friends, having gay times, perhaps—who knows?—meeting "the man." But she hadn't. Everybody left her politely alone.

"They're just selfish and mean," she thought as she watched the other young folks go off on parties and picnics. But they weren't. Anne, for all her good looks, didn't measure up in an important particular. Other people couldn't help but notice a most unpleasant of-

fense—perspiration odor in underthings.

A pity—Anne could have made herself dainty—adorable—the center of all the fun. It's the easiest thing in the world to avoid offending. Just Lux lingerie after each wearing. Dainty girls always do this. Why are there any girls who don't?

We don't notice perspiration odor in our own lingerie. Other people do—so quickly! When Lux takes it away completely, it's foolish ever to take a chance. Protect your popularity and charm. Use Lux every day.

## The vacation she MIGHT HAVE HAD

### AVOID OFFENDING

Underthings absorb perspiration odor—Protect daintiness this easy way

1. Lux underthings after each wearing. Lux removes perspiration odor completely—saves colors and fabrics, keeps them like new! It takes only 4 minutes a day!
2. Avoid ordinary soaps with harmful alkali, and cake-soap rubbing. These tend to fade and streak colors, injure dainty fabrics. Anything safe in water is safe in Lux.

## 45 Boys Enrolled At Camp Happyland

Camp Happyland is now in full swing with 45 boys enjoying a vacation and routine life on Clinton Island.

A week showing on weights was introduced yesterday when the boys were weighed. The boys were given ranging from one to two and one half pounds. The boys who buy Christmas presents and who have donated to Camp Happyland could see these hungry boys eat and clean plates five times a day they would certainly feel well repaid for the nice things they do for these youngsters.

The following people the children extend their thanks for special donations:

DO THIS *Beneta Cox* WHEN  
YOU FEEL "HALF SICK"  
PRESCRIBES DR. W. — \* FOR NEW YORK SECRETARY

\*Dr. W. is a well known New York physician, whose signed statement is on record in New York. We omit his name out of courtesy to the accepted custom of the medical profession.

To relieve quickly and thoroughly that depressing "half-sick" feeling . . . you must get at the real cause! Read here the advice of Doctor W.

You, like thousands of others, may be feeling low . . . depressed—not really ill, just "half-sick"—and never realize the cause!

Yet, according to Dr. W., famous New York physician, frequently the cause is just this:—your intestines are clogged with an accumulation of poisonous wastes.

These poisons, doctors know, are picked up by the blood stream and spread all over your body—thus causing you to feel lousy, out-of-sorts, "half-sick." The accumulated wastes exert pressure on the nerves of your intestines—and you get one of those dull, sick headaches.

You must get rid of these poisonous wastes before you can hope to feel well again. For nearly forty years, doctors have prescribed Sal Hepatica as the safe, quicker way to do this.

For Sal Hepatica is utterly different from other types of laxatives in four vital respects:—

### WHY SAL HEPATICA IS DIFFERENT—MORE EFFICIENT

1. It is a Mineral Salt Laxative. It flushes the system clear of poisonous wastes and aids Nature to restore the natural balance of body fluids.

2. Its action results from osmosis (a gentle, thorough flushing) and not from irritation.

3. It acts promptly. No hours of waiting to upset your day.

4. No "dragged-out" feeling afterwards—for Sal Hepatica does not deplete body tissues of fluid.

So take Sal Hepatica at the first sign of clogged intestines. And thus aid Nature to keep you free from colds, grippe, rheumatic pains, upset stomach and many other common troubles.

## Camp Half Moon Opened on Sunday

Camp Half Moon, the summer camp of the Ulster-Greene Council, Boy Scouts of America, opened last Sunday afternoon and everything was in readiness for the arrival of campers. Sunday afternoon saw campers coming and by the time supper was served every camper was on hand in readiness for the pleasures of the week.

The first Camp Fire took place Sunday night and "Coach" Cahill, the camp director, introduced the members of the staff to the campers. After the introductions the camp fire program took place with songs, games, etc. S. D. Scudder, Jr., of Kingston, added material to the opening camp-fire with the help of his accordion and every camper is anxious to have more of these enjoyable affairs.

Monday saw the camp get under way in its many activities and when the writer visited the camp on Tuesday morning everything was going well. Many new boys are in camp this week and after the first 24 hours they were acting like old timers.

Boys are present the opening week from Kingston, Saugerties, Athens, Windham, Ellenville, Catskill, Hunter and New Paltz.

The first period of the camp closes with breakfast on Sunday, July 15 and the second period opens with supper on Sunday evening, July 15. The camp committee announces there are still openings during the third period, July 29 to August 5, and any Scouts wishing to attend for that period should send their applications direct to the Council office at 277 Fair street, Kingston.

## PLATTEKILL GRANGE TO MEET AT HALL SATURDAY EVENING

Plattekill, July 11.—At the next regular meeting of Plattekill Grange, No. 923 P. of H. Saturday evening, July 14, the literary program will be in charge of the lecturer assisted by Evelyn Presler and Milton Van Duser. A "Community Night" is being featured to which local organizations are invited. Each group will have a part in the program. The Savillon Boy Scout Troop, the Plattekill, Modena and Wallkill 4-H Clubs, and the Modena Girl Scouts are among those invited. There will be a short speaking contest with a medal award. Community singing and games will complete the program. Refreshments will be served by the Grange.

On Friday evening, July 6, a committee of County Grange officials was held at the home of Mr. and Mrs. Henry Mollenhauer of Rosendale to plan for a county picnic for all granges of Ulster county. Mr. and Mrs. Charles Jenkins of the local grange attended.

# KNEE-ACTION

tops a 22-year record of engineering progress that makes Chevrolet the best riding car in the low-price field

Year after year, it's been the same story: Chevrolet FIRST with the NEWEST and BEST! Chevrolet leading—others following. Chevrolet out in front with the latest proved advancements. Self-starter! Sliding gear transmission! Streamlined design! It was Chevrolet aggressiveness and progressiveness that forced all low-priced cars eventually to adopt these and other major improvements. And now, this year, comes the climax of Chevrolet's engineering leadership: the Knee-Action ride!

This newest of motoring sensations is a marvel of smooth, easy, gentle motion. No other ride in the world can even compare with it. It makes Chevrolet far and away the best riding car in the low-price field.

Have you noticed how America has taken to the Knee-Action ride? In the first 6 months, demand for Chevrolet cars sent production to the highest total attained by any automobile during 1934.

Orpheum: "Death Takes a Holiday." A peculiar movie this, with a plot structure both unusual and interestingly worked out, and a fine cast headed by Fredric March. Evelyn Venable, Sir Guy Standing, and Kent Taylor. It is the story of a death, who grows tired of his job and who comes to earth in the role of a man to look around and taste life. He falls in love during his stay on earth, and as his stay is limited to hours, he knows he must either leave the girl on earth or take her with him. The decision rests with her, and she does what she considers the only thing worth doing. "The Avenger" is the second feature.

Broadway: "The Countess of Monte Christo" and "Back Stage Mystery." The first offering concerns a movie actress who rises from her low station in life to enact the role of a real countess. She has a lot of fun, but numerous complications crop up constantly during her pretending. Fay Wray and Paul Lucas are featured. "Back Stage Mystery" is a fast moving story of stage life, with Dorothy Mackail and C. Aubrey Smith.

### Colonial Flower Show Announced

The second annual Colonial Flower Show will be held at The Palace of the Comforter Hall on September 1, according to an announcement today by the sponsors, and it is expected that the affair will be a big success and better than ever with more awards for displays and a greater variety of classes for those who are interested in showing their flowers, both amateur and professional.

There will be ribbon awards in all classes and in addition bronze medals to the best amateur and professional displays. The advisory committee, headed by E. Carey, exhibit committee by George J. Krudener, the committee on arrangements by Mrs. Frank L. Brown, the pageant committee by Mrs. J. Flowers, and the publicity committee by Mr. Krudener and Fred L. Tubby.

The following rules for entry have been compiled: Exhibitors will not be allowed to make more than one entry in a class, except in seedling classes. Flowers entered in competition must have been grown by the exhibitor, and if but one exhibit in a class that exhibit shall be judged upon its merits. All flowers entered for competition must be in position by 12 o'clock noon on the day of the show. Flowers of a less number than called for will be permitted only in seedling class. Exhibitors must enter their flowers in their proper classes and avoid all confusion. The decision of the judges shall be final. Classes will be provided for any flowers entered in the show not classified. Exhibitors must furnish their own containers. The schedule of classes follows:

### Girl Scouts ULSTER COUNTY COUNCIL

Camp Wendy at Walkkill opened last Saturday with 70 girls, many of whom plan to remain throughout the entire season. Kingston Scouts are well represented and we hear are contributing their full share to the fun.

Applications for the next encampment are coming in rapidly from all over the county although few have been received from Kingston girls as yet. Indications are that there are numbers of local girls who are planning to attend camp but are slow in applying. The council announces that applications should be placed at once or that the girls will be left off the roll, as the sections are rapidly filling. Applications may be sent to Mrs. N. D. J. Murphy, 9 Andrew street, or Miss Mildred Easton, Ellenville.

Visitors are welcome at the camp on Sunday from 2 to 5 o'clock. Parents of girls who are interested in attending the camp as well as parents who have girls now at the camp, will be cordially received and shown over Wendy.

On Thursday the Walkkill Women's Club is planning a community day with a dog show, baby show and other events. In the evening, the Girl Scouts will take over the entertainment. The Walkkill troop is coming in with Miss Dorothy Schroeder, camp director, to prepare a camp fire. There will be songs and stunts around the fire in the real campy manner.

Camp Wendy is bigger and better than ever this year and every girl who can possibly attend is urged to avail herself of the opportunity to attend the camp this season.

St. John's Choir Rehearsal

There will be a rehearsal of the members of the volunteer choir of St. John's Episcopal Church held on Thursday evening at 7:45 o'clock at the home of Mrs. Obenaus, who is acting organist for the month of July, at 42 Green street. Any members of the congregation or older members of the church school who can attend the Thursday evening rehearsals and the Sunday morning services and can sing are cordially invited to the rehearsal tomorrow evening.

# Fashions By Barbara Bell

## An Afternoon Frack Reflecting Fall Trends

Women who do not like prints because they tire of them will surely react favorably to the afternoon frack sketched today. It is made of plain colored crepe and the impression it creates is one of well-bred simplicity—a quality very pleasing to modern women. While this model is definitely one for summer wear, it is many of the rumors about fashions for fall. Well balanced symmetry is reported as an incoming fashion characteristic. Here it is evidenced in simple clusters of plaits as in the side-seams of the two-gore skirt. Trimming interest in the waist is concentrated on the shoulders, the ruffled neckline and the deep arm-hole. A slash at the back makes for added coolness and contributes additional inches for getting in and out of the dress without discomfort. This dress is so advanced in style as to make the owner reasonably certain of appearing fashion-conscious when wearing it a year from now. It comes in a wide range of sizes and is regarded by style experts as a safe choice in a more or less expensive afternoon dress to get for this season of the year.

At a recent showing of imported models it was interesting to note that the leading plain colors were Kelly green, bluing blue and reds that showed an American beauty cast; classed with the latter were certain dahlia shades that merged into magenta, showing the still important influence of Persian and Chinese colors upon our current fashion schemes. Most of these shades are slated for success in our plain silk crepes for Fall, thus making it permissible for us to rush the season by using any of them in our last minute selections for midsummer.

## Pickin' Cottons!

Edited by

LAURA I. BALDT, A.M.

For many years Assistant Professor of Household Arts,  
Teachers College, Columbia University, New York

2936

Everyone is pickin' cottons this season, so fashionable for town or country wear.

Today's model in pique print has the newest very short fitted caped shoulders. You will note it gives a very snappy look to this otherwise really very simple line dress.

Plaided gingham, linen, peasant cottons, washable silks, seersucker, etc. are all lovely mediums for this easy to make model.

Style No. 2936 is designed for sizes 14, 16, 18 years, 36, 38 40 and 42 inches bust.

Size 36 requires 3 1/2 yards of 35-inch material with 1/4 yard of 25-inch contrasting for belt and 1 yard of ribbon for bow.

Send TEN CENTS (10¢) in stamps or coin (coin is preferred). Write plainly NAME, ADDRESS and STYLE number. BE SURE TO STATE SIZE YOU WISH.

THE NEW SUMMER EDITION of our PATTERN BOOK features FASHION, BEAUTY and HEALTH.

PRICE OF BOOK TEN CENTS.

Address orders to KINGSTON FREEMAN PATTERN DEPARTMENT, 266 Fifth Ave., New York, N. Y.

## MENU FOR TODAY

Menu For Thursday, July 12

Breakfast: Blackberries, dry cereal with cream, shirred eggs, rice muffins, coffee.

Luncheon: Spaghetti and eggs in casserole, rye bread, lime gelatine, plain cream, brownies, tea.

Dinner: Shrimp cocktail, real cutlet, rice potatoes, green beans, tomato and lettuce salad, French dressing, red cherry pie, cheese, coffee.

### Rice Muffins

Rub through a coarse sieve enough boiled rice to make 2 cups. Add 1 1/2 cups milk, the beaten yolks of 3 eggs, 1 1/2 tablespoons sugar, 1 tablespoon butter, melted; 1 cup flour, mixed and sifted with 1 rounded tablespoon baking powder and 1/2 tablespoon salt and finally fold in the stiffly-beaten white. Bake in a hot oven.

### Brownies

One-third cup butter, 1-2 cup sugar, 1-3 cup molasses, 1 egg, 1 scant cup flour, 1 cup pecan or other nuts, 1/2 tablespoon baking powder. Cream the butter and sugar, add the molasses and egg, and, lastly, the flour and baking powder sifted together. Stir in the nuts and bake the cakes in small fancy pans well greased.

### Red Cherry Pie

Three cups sour cherries, 1 cup sugar, 1 tablespoon cornstarch, 2 tablespoons butter, pastry.

Stir the sugar and cornstarch together until well mixed, pour over the cherries and mix lightly. Turn into a pastry-lined pie plate and dot with the butter. Cover with a top crust, moisten the edges and seal carefully; make several slits near the center of the upper crust. Bake in a moderately hot oven (400 degrees F.) for about 35 minutes.

## Girl Slayer Makes Fourth Prison Break

Little Rock, Ark., July 11 (P)—Helen Spence Eaton, pretty Arkansas girl who has killed two men, was a fugitive today from the state farm for women for the fourth time, according to a year.

The quiet and carefree prisoner was serving a 10-year sentence for her second killing when she escaped by feigning illness. She had a guard a pistol in her hand, waving it and officials fear trouble in the morning her this time.

Her fourth escape came a year to the day after she was paroled by Governor Putrell from a 10-year sentence for the shooting killing of Jack Worley, alleged killer of her father. The shooting brought a dramatic climax to Worley's trial, as the jury had just started to leave the room to consider the case. Helen arose from her court-appointed chair and fired a bullet into Worley's head.

She was sentenced to 10 years and escaped once before. She was granted a commutation of her term less than a week when she escaped police headquarters and admitted.

## RAIN INSURANCE

Summer will soon be here and with it will come many outdoor events. The success or failure, financially, of such affairs depends largely on fair weather. If it rains, it usually means disappointment and financial loss. Rain is undoubtedly the greatest hazard outdoor as well as many indoor affairs have to contend with. Rain Insurance will surely and definitely prevent losses due to rainfall. The rules require that an application be made at least seven days before the affair takes place. Let us quote rates.

Don't forget that I also specialize in automobile insurance, writing for dependable companies, giving prompt service. I would be pleased to write an EXPLOSION INSURANCE policy or a fire insurance policy on your dwelling or furniture. When you start on your vacation, let me insure your baggage.

## Local Death Record

**William Snyder**, president of the Snyder Family Wholesale Grocery Co. of Middletown, died at his home there Tuesday, aged 75 years. He is survived by his wife and two daughters.

The funeral of Edward Bizer was held Tuesday afternoon at his home, 32 Prince street. The Rev. P. H. Deming, pastor of Trinity M. E. Church, officiated. Interment was in the St. Remy cemetery.

The funeral of Susan Hossman, who died suddenly Monday, at her home, 50 Murray street, will be held from the James M. Murphy Funeral Home Thursday morning at 10 o'clock, thence to the Church of the Immaculate Conception where a Mass of requiem will be offered for the repose of her soul. Interment will be in the Mt. Calvary cemetery.

Charles Cudney, a former resident of the town of Olive, died at his home in Brooklyn Monday, July 9. He is survived by his wife, Mrs. Anna Cudney, one son, Ernest, of Brooklyn, one daughter, Mrs. Albert Rowe, of Kingston, and two grandchildren; also a brother, H. Cudney, of West Park. Funeral services will be held at the Funeral Home of Victor N. Lasher in Woodstock Thursday, July 12, at 1:30 p. m. Interment will be in Woodstock cemetery.

Funeral services for Dr. George S. Lamoree, who died at Highland Saturday, were held from the First Presbyterian Church at Highland Tuesday, with burial in Highland cemetery. He is survived by two daughters, Mrs. Lena Wilcox and Mrs. Abram Rhodes. Dr. Lamoree was born in Ellenville and practiced medicine for a while at Grahamville before removing to Highland. He served the town of Lloyd as supervisor in 1878 and also served two terms as postmaster at Highland, having been appointed by President Wilson.

Monday evening funeral services for the late Vincent Edmunds, who died suddenly early Sunday morning, were held at his home in Sloatsburg and were conducted by the Rev. Clarence E. Brown. A large number of friends attended and the beautiful floral tributes bespoke the esteem in which he was held. The body was then taken to the funeral parlors of Charles Ronk in Walkkill, where services were held at two o'clock on Tuesday, with interment in the Shawangunk cemetery. He had been a friend to many and in his death this community has lost not only a good citizen but one whose many deeds of kindness and helpfulness will be missed by all who knew him.

Mrs. Mary E. Houghtaling died suddenly on June 29 in Tannersville at the home of her son, George, where she and her aged husband had spent the past two years. Mrs. Houghtaling was born in Connellsville in 1854 and spent her younger days there. Nearly 56 years ago she married Robert Houghtaling of Port Ewen, making her home in that place for over 50 years. She was a devout Christian, active in all good work and was loved and respected by all who knew her. On Tuesday, July 3, a prayer service was held at her son's home in Tannersville. Comforting words were spoken by the Rev. Mr. Spencer of the M. E. Church. At 3 o'clock, on the same afternoon, the funeral service was held from the Reformed Church in Port Ewen and was conducted by the Rev. Mr. Polhemus her pastor of many years. The daughters of Liberty, of which Mrs. Houghtaling was a charter member, were in attendance and held their service at the grave. The floral tributes from family friends and neighbors were very large. Sympathy of friends is extended to her companion, her only child, George, and to a sister, Corn Whinery, of Boston and three brothers, George, Walter and Robert. Lee R. Decker had entire charge of the funeral.

The funeral of George Newton Wood was held on Tuesday afternoon at two o'clock in St. John's Church where Mr. Wood had been a loved and honored vestryman for the past nine years. It was very largely attended, there being present representatives from Kingston Lodge No. 10, F. & A. M., of the Coxsackie R. A. M., and the Kingston Mendelssohn Club. The full choir of men and boys of the church was present for the singing of the hymns, "The Day Thou Gavest Me," and "The Strife is Over," and the Nineteenth Psalm, with Walter J. Kidd, organist of Holy Cross Church, at the organ in the absence of Robert Williams, organist of the church. There was no eulogy of the church. At the funeral service in the custom in the Episcopal Church. However, on Sunday morning, last, after the word had been received of Mr. Wood's death, the rector, the Rev. W. Poyntell Kemper, paid a beautiful and well earned tribute to the life of the friend and vestryman, loved by all who knew him. Taking for the text of his sermon on "The Resurrection," 1 Corinthians, XV, 44: "It is sown a natural body, it is raised a spiritual body." Mr. Kemper reminded the congregation to the Church of the Immaculate Conception where a Mass of requiem longer go in and out among them will be offered for the repose of her and his presence would be deeply missed, spiritually the influence of cemetery.

**Junior and Senior.**  
The use of the title "Jr." after one's name is largely a matter of personal taste and preference. But the "Junior" is not a part of one's name; it is used simply for distinction, and with the father's death it is no longer necessary and is customarily dropped.

**Died.**

**HOSMAN.**—In this city, Monday, July 9, 1934, Susanne Lucas, widow of the late Metro Hosmann.

Funeral Thursday morning, July 12, from the James M. Murphy Funeral Home at 8:30 o'clock, thence to the Church of the Immaculate Conception where a Mass of requiem longer go in and out among them will be offered for the repose of her and his presence would be deeply missed, spiritually the influence of cemetery.

## Roosevelt Received Secretary Dern Today

Cristobal, C. Z., July 11 (P.M.)—President Roosevelt's secretary, the U. S. S. Houston, dropped anchor in the harbor here at 5 p. m. today and received aboard Secretary of War George H. Dern, preparatory to a trip of inspection through the Panama Canal.

The war secretary, who is in charge of the Canal Zone, described the canal as not only a vital factor in the national defense but also as "the greatest of non-military activities."

The president came on deck early to witness the trip through the canal, which connects two oceans.

Shortly after 10 o'clock the Houston started through the canal. The Gatun locks were crowded with spectators awaiting the arrival of the president. Infantrymen and Canal Zone police were guarding all approaches.

## Collective Bargaining

Collective bargaining is a labor union term, and refers to a method of determining wages, hours and working conditions by direct negotiation between the representatives of a labor union and an employer.

Instead of acting individually, as in the case of individual bargaining, the employees act as a group in presenting their demands, appointing representatives who hold conferences with the representatives of the employers in order to adjust matters of dispute.

The individual employee subordinates himself to the common interest of his fellows and in return receives benefits which he could not obtain alone.
